

# Baking with LPG: Celebrity British baker Nadiya Hussain makes regional specialties

**LPG**  
EXCEPTIONAL  
ENERGY

LPG is a clean, modern fuel that brings comfort to tens of millions of consumers worldwide. Its versatility makes it efficient and easy to use and its clean burning qualities allow for lower carbon emissions with the same, if not better, results.

This case study looks at the former Great British Bake Off winner Nadiya Hussain who has been touring the UK seeking out regional specialities and local food heroes. This study looks at Nadiya's tour of a Derbyshire farmhouse bakery and its use of LPG supplied by WLPGA member AvantiGas, the benefits of cooking with LPG and a look into LPG as an exceptional energy.

An Exceptional Energy case study

# 1. Meet Nadiya Hussain

Nadiya Hussain, a British baker, columnist, author and television presenter rose to fame after winning the sixth series of BBC's The Great British Bake Off in 2015. Nadiya was also invited to produce a cake for the 90th birthday celebrations of Queen Elizabeth II and has presented her own BBC documentary, *The Chronicles of Nadiya*, a TV cookery series, *Nadiya's British Food Adventure* and will co-present *The Big Family Cooking Showdown*.

In her BBC2 TV series *Nadiya's British Food Adventure*, she visited Chapel-en-le-Frith to sample Ian Barratt's an AvantiGas customers authentic Derbyshire oatcakes fired on a gargantuan, vintage 18 foot hot plate heated by LPG. On July 24<sup>th</sup>, 2017 the BBC series aired showcasing Nadiya cooking with LPG, and the county of Derbyshire's use of LPG for baking oatcakes.

## 2. AVANTIGAS

AvantiGas, a member of WLPGA provides LPG, a reliable and cleaner burning fuel for your home. It is an ideal solution if you live off the gas grid, as it provides the same benefits.

AvantiGas is one of the UK's leading LPG suppliers. As the UK arm of UGI International, a global distributor and marketer of energy solutions, products and services, AvantiGas has a long-standing reputation for delivering excellence in energy production and distribution.

AvantiGas customer Ian Barratt has taken advantage of the many applications and usage of LPG as an efficient, clean and versatile fuel. Ian has just had his third one-tonne LPG bulk tank installed for his business, Derbyshire Oatcakes and Pikelets, which has been in his family since 1949 and delivers to shops, pubs, cafes and restaurants across three counties in the UK. LPG provides fuelling heating and cooking for Ian's farmhouse and bakery, fuels a holiday cottage and heats the toilet block on Ian's campsite.

## 3. Derbyshire Oatcakes and Pikelets

Ian has been an AvantiGas customer since the company was founded after buying out Shell's UK LPG business in 2011: "I've always been very well looked after," said Ian. LPG has provided Ian with exceptional energy and exceptional catering capabilities "Gas has a nice moist heat which is what you need for the oatcakes. Electric hotplates dry them out too much," says Ian.

Thanks to LPG, and AvantiGas, who have been providing Ian with a reliable source of heat and power for more than six years, earning his loyalty with consistently great service and competitive prices, Derbyshire Oatcakes can continue with their trusted recipe since 1949. A close guarded family secret, handed down through three generations of bakers.
