The LPG contribution to the SDGs

1. No Poverty
2. Zero Hunger
3. Good Health and Well-being
4. Quality Education
5. Gender Equality
6. Clean Water and Sanitation
7. Affordable and Clean Energy
8. Decent Work and Economic Growth
9. Industry, Innovation and Infrastructure
10. Reduced Inequalities
11. Sustainable Cities and Communities
12. Responsible Consumption and Production
13. Climate Action
14. Life Below Water
15. Life on Land
16. Peace and Justice, Strong Institutions
17. Partnerships for the Goals
Map the LPG contribution to the SDGs

"Three billion people need clean cooking solutions and their economic success is a hugely exciting investment opportunity.

LPG is an exceptional part of that opportunity... Imagine if we can create vibrant markets for clean fuels for the 20 countries where 84% of those three billion people live.

We would be advancing progress on the SDGs on health, poverty, women, children, environment, deforestation, energy and climate."

Rachel Kyte, Special Representative of the UN Secretary-General and CEO, Sustainable Energy for All

Where does LPG contribute?

5 Gender Equality

3 Good Health and Well-being

11 Sustainable Cities and Communities

7 Affordable and Clean Energy

9 Industry, Innovation and Infrastructure

13 Climate Action

8 Decent Work and Economic Growth
But also....

1. No Poverty
2. Zero Hunger
4. Quality Education
6. Clean Water and Sanitation
10. Reduced Inequalities
12. Responsible Consumption and Production
14. Life Below Water
15. Life on Land
16. Peace, Justice and Strong Institutions
17. Partnerships for the Goals
LPG and the SDGs
Linking WLPGA objectives to the SDGs by distinguishing between direct and indirect influence

The image contains a chart with various sections labeled with numbers and icons, indicating different aspects of sustainability and energy efficiency. The text snippets provide information on the environmental benefits of LPG, its use in cities, and the role of LPG in affordable and clean energy solutions. The chart likely illustrates strategies or initiatives related to sustainable cities and communities, affordable and clean energy, and climate action.

In Europe, LPG offers 15% lower emissions compared to other fuels. This highlights the role of LPG in addressing climate change and promoting sustainable energy solutions.

In conclusion, the information underscores the importance of aligning WLPGA objectives with the SDGs to ensure a sustainable future.
An area that clearly connects all of us in the LPG industry is providing clean energy.
