

# REGIONAL LPG TRAINING COURSE : DOWNSTREAM GOOD INDUSTRY PRACTICES IN AFRICA

**24 - 26 June 2015 | Safari Park Hotel, Nairobi**

The Petroleum Institute of East Africa, together with World LPG Association, and LPG Academy will be running a training seminar titled "Downstream Good Industry Practices in Africa" on **24 - 26 June 2015** in **Safari Park Hotel Nairobi, Kenya**.

In order to maintain the LPG industry's impressive safety record and sustainable growth of the LPG industry in the Africa market, both sound investments and good knowledge of LPG Management by industrial participants are integral.

This LPG training course, supported by the WLPGA and run by PIEA and LPG Academy, will:

- Identify mechanisms and strategies that can be initiated and rolled out in order to increase LPG penetration and consumption
- Identify the key drivers of LPG consumption
- Identify some of the business practices that are evident in the country that require action, in the LPG value chain
- Address these issues through the use of training and case studies using approved National Standards, Best Practices as well as WLPGA endorsed training materials
- Secure common approach/agreement by all key stakeholders to address these issues
- Develop action plans and a timetable to implement a series of action plans towards improved LPG consumption.
