

PRESS RELEASE: FOR IMMEDIATE RELEASE

14th December 2022

**Women in LPG Global Network Welcomes New Global Chair –
Pam Indurjeeth, Managing Director, Oryx Energies South Africa**

The WINLPG Team are delighted to announce that Pam Indurjeeth will become Global Chair of WINLPG with effect from 1st January 2023.

The Women in LPG Global Network (WINLPG) is an initiative that was launched in 2015 by the World LPG Association (WLPGA). Recognising the need to promote women, and young talent, in the LPG industry the WLPGA created The Women in LPG Global Network (WINLPG) as a platform to meet, connect, exchange and learn. The network has over 3,000 members and has nine active national chapters in the USA, Nigeria, South Africa, Myanmar, India, Brazil, Poland and Colombia.

Pam will take over from Paula Frigerio of Abastible in Chile who has been at the helm of WINLPG for the past three years. The WINLPG team warmly thanks Paula for her leadership and passion, she has been instrumental in the growth of the network over the past three years.

As WINLPG grows from strength to strength we welcome Pam to guide this key network to the next level of success. The next three years, in line with the WLPGA Strategic Three Year Plan, promise to take WINLPG to a new level of worldwide outreach.

Ms Indurjeeth commented:

I am delighted and honoured to be appointed as the Global Chair of WINLPG. Encouraging progress has been made by the LPG industry in its commitment to diversity and inclusion. Whilst the WINLPG chapters have taken off, we must aim to pick up the pace, and set the tone for rapid transformation. Visible effort and active participation must continue in setting goals to achieve our diversity and inclusion ambitions.

Paula, thank you for the impact you have made, I feel privileged to take over from you. I salute all those pioneers and strong advocates who continue to contribute to increasing the

percentage of women across the global LPG industry. Together with our international team of experts please join me as we look forward to growing our national chapters, building a platform of strong mentors, sharing our success stories, and challenging ourselves to measure our progression.

Best wishes and stay safe, Pam

Outgoing Global Chair, Ms Frigerio commented:

It has been my pleasure and honour to lead the WINLPG network for the past three years. In this time, despite the unforeseen challenges of COVID-19, WINLPG has expanded to nine national chapters, we have added 1,000 members to our network and increased our library of inspirational role model profiles. We have developed an annual webinar series which enables women who are not normally able to attend our meetings to be involved. I am extremely proud of what has been achieved in the past few years and I hope to continue to be an active part of this valuable initiative. I wish Pam all the very best and I am assured that the next three years of our network is in very safe hands!

About WLPGA

The World LPG Association (WLPGA) is the authoritative voice for the global LPG industry representing the full LPG value chain. The primary goal of the association is to add value to the sector by driving premium demand for LPG, while also promoting compliance to good business and safety practice. With over 300 members in 125 countries, the association brings together private and public companies involved in one, several or all activities of the industry, develops long-term partnerships with international organisations and implements projects on local and global scales. The Association was established in 1987 and granted Special Consultative Status with the United Nations Economic and Social Council in 1989.
